

§ 15497. Local Control and Accountability Plan and Annual Update Template.

Introduction:

LEA: Oroville Union High School District **Contact** Dr. Corey Willenberg, Superintendent Email: cwillenb@ouhsd.org (530) 538-2300 ext. 1107

LCAP Year:2014-15

Local Control and Accountability Plan and Annual Update Template

The Local Control and Accountability Plan (LCAP) and annual update template shall be used to provide details regarding local educational agencies' (LEAs) actions and expenditures to support pupil outcomes and overall performance pursuant to Education Code sections 52060, 52066, 47605, 47605.5, and 47606.5.

For school districts, pursuant to Education Code section 52060, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities and any locally identified priorities.

For county offices of education, pursuant to Education Code section 52066, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, who are funded through the county office of education Local Control Funding Formula as identified in Education Code section 2574 (pupils attending juvenile court schools, on probation or parole, or mandatorily expelled) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services provided to pupils funded by a school district but attending county-operated schools and programs, including special education programs.

Charter schools, pursuant to Education Code sections 47605, 47605.5, and 47606.5, must describe goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities as applicable and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the Education Code.

The LCAP is intended to be a comprehensive planning tool. LEAs may reference and describe actions and expenditures in other plans and funded by a variety of other fund sources when detailing goals, actions, and expenditures related to the state and local priorities. LCAPs must be consistent with school plans submitted pursuant to Education Code section 64001. The information contained in the LCAP, or annual update, may be supplemented by information contained in other plans (including the LEA plan pursuant to Section 1112 of Subpart 1 of Part A of Title I of Public Law 107-110) that are incorporated or referenced as relevant in this document.

For each section of the template, LEAs should comply with instructions and use the guiding questions as prompts (but not limits) for completing the information as required by statute. Guiding questions do not require separate narrative responses. Data referenced in the LCAP must be consistent with the school accountability report card where appropriate. LEAs may resize pages or attach additional pages as necessary to facilitate completion of the LCAP.

State Priorities

The state priorities listed in Education Code sections 52060 and 52066 can be categorized as specified below for planning purposes, however, school districts and county offices of education must address each of the state priorities in their LCAP. Charter schools must address the priorities in Education Code section 52060(d) that apply to the grade levels served, or the nature of the program operated, by the charter school.

A. Conditions of Learning:

Basic: *degree to which teachers are appropriately assigned pursuant to Education Code section 44258.9, and fully credentialed in the subject areas and for the pupils they are teaching; pupils have access to standards-aligned instructional materials pursuant to Education Code section 60119; and school facilities are maintained in good repair pursuant to Education Code section 17002(d). (Priority 1)*

Implementation of State Standards: *implementation of academic content and performance standards adopted by the state board for all pupils, including English learners. (Priority 2)*

Course access: *pupil enrollment in a broad course of study that includes all of the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Section 51220, as applicable. (Priority 7)*

Expelled pupils (for county offices of education only): *coordination of instruction of expelled pupils pursuant to Education Code section 48926. (Priority 9)*

Foster youth (for county offices of education only): *coordination of services, including working with the county child welfare agency to share information, responding to the needs of the juvenile court system, and ensuring transfer of health and education records. (Priority 10)*

B. Pupil Outcomes:

Pupil achievement: *performance on standardized tests, score on Academic Performance Index, share of pupils that are college and career ready, share of English learners that become English proficient, English learner reclassification rate, share of pupils that pass Advanced Placement exams with 3 or higher, share of pupils determined prepared for college by the Early Assessment Program. (Priority 4)*

Other pupil outcomes: *pupil outcomes in the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Education Code section 51220, as applicable. (Priority 8)*

C. Engagement:

Parent involvement: efforts to seek parent input in decision making, promotion of parent participation in programs for unduplicated pupils and special need subgroups. (Priority 3)

Pupil engagement: school attendance rates, chronic absenteeism rates, middle school dropout rates, high school dropout rates, high school graduations rates. (Priority 5)

School climate: pupil suspension rates, pupil expulsion rates, other local measures including surveys of pupils, parents and teachers on the sense of safety and school connectedness. (Priority 6)

Section 1: Stakeholder Engagement

Meaningful engagement of parents, pupils, and other stakeholders, including those representing the subgroups identified in Education Code section 52052, is critical to the LCAP and budget process. Education Code sections 52062 and 52063 specify the minimum requirements for school districts; Education Code sections 52068 and 52069 specify the minimum requirements for county offices of education, and Education Code section 47606.5 specifies the minimum requirements for charter schools. In addition, Education Code section 48985 specifies the requirements for translation of documents.

Instructions: Describe the process used to engage parents, pupils, and the community and how this engagement contributed to development of the LCAP or annual update. Note that the LEA's goals related to the state priority of parental involvement are to be described separately in Section 2, and the related actions and expenditures are to be described in Section 3.

Guiding Questions:

- 1) How have parents, community members, pupils, local bargaining units, and other stakeholders (e.g., LEA personnel, county child welfare agencies, county office of education foster youth services programs, court-appointed special advocates, foster youth, foster parents, education rights holders and other foster youth stakeholders, English learner parents, community organizations representing English learners, and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?

- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to Education Code sections 52062, 52068, and 47606.5, including engagement with representative parents of pupils identified in Education Code section 42238.01?
- 6) In the annual update, how has the involvement of these stakeholders supported improved outcomes for pupils related to the state priorities?

Introduction:

The Oroville Union High School District is located in the rural north valley at the base of the Sierra Nevada foothills, about seventy miles north of Sacramento. The district encompasses 647 miles of eastern Butte County. The district has two comprehensive high schools, one continuation school, one community day school and one adult education school. The Butte-Glenn Community College and California State University, Chico are located approximately 25 miles from Oroville.

Oroville is the Butte County seat and the primary source of income for the city's population of 15,563 residents (55,000 in the greater Oroville area). Other significant sources of income are agriculture, light manufacturing, tourism, retail trade services, transportation, public utilities, construction, finance, government and public administration. The 2009 median household income in the city was \$38,824.

Comprehensive High Schools

Oroville High School was founded in 1892 and is the oldest high school in the district. The eighteen-acre campus has fifty-five classrooms and seven computer labs, which are all connected to the Internet. The building has seen several upgrades over its many years in existence. Bond Measure, J, which passed in 2002, provided monies for a new science building, industrial technology building and library and modernization of the gymnasium. Most recently, Oroville High added new baseball and softball fields. Oroville High School employs 2 administrators and nearly 75 staff members. There are approximately 1100 students enrolled at the school.

Las Plumas High School was established in 1960 as the second comprehensive high school to alleviate overcrowding at Oroville High School. The sixty-four acre campus is the largest school in the district. The original buildings have been supplemented during growth phases by 40 portables. Bond Measure J, which passed in 2002, provided the monies for the new gymnasium, agricultural science lab and classrooms, fine arts complex and modernization of the existing classrooms. Las Plumas High School is supervised by 2 administrators and employs nearly 100 staff members. There are approximately 1200 students enrolled at the school.

Both campuses offer a traditional high school time schedule. The Monday schedule has six periods of class time (50 minutes each) followed by collaboration time for teachers. The Tuesday through Friday schedule has six periods of class time (57 minutes each) and a consultation period from 12:06 p.m. - 12:30 p.m. to provide time for students to receive extra help from their teachers. The consultation periods are used to provide extra assistance to students.

Continuation School

Prospect High School was founded in 1969 as the continuation program for the district. The school serves approximately 115 students who are credit deficient or in need of a smaller school environment. The school was chosen by the State of California as a Model School in 1994 and in 2000. Prospect High School has a principal that serves the entire alternative education program, 7 certificated teachers, a part-time counselor and 5 classified employees. Prospect also houses an Early Head Start center for teen parents.

Community Day School

The OUHSD Community Day School was founded in 1999. The school serves approximately 30 students who have been referred there by expulsion, probation placement or truancy referral. The restrictive environment offers an educational option for students with high expectations, whether the student is performing at or above grade level, or in need or remediation in one or more academic areas. Community Day School has a principal that serves the entire alternative education program, 2 certificated teachers and 3 classified employees.

Adult School

Oroville Adult Education Career and Technical Center serves approximately 2,000 youths and adults annually with academic and vocational programs. Academic programs include High School Diploma, General Education Diploma (GED) preparation, computer applications, job readiness, English as a Second Language (ESL), Adult Basic Education (ABE), independent study and Career Exploration. Vocational Certification programs include Office Technology and Accounting. Medical certification programs include Pharmacy Technician, Certified Nursing Assistant (CNA) and Emergency Medical Technician (EMT). The Adult School offers credit recovery opportunities for high school students in the Oroville Union High School District.

Involvement Process	Impact on LCAP
<p>The District started gathering community input from 2013</p> <p>Survey Tools</p> <p>The district set up a LCFF email address and an LCFF voice mail box where all stakeholders could give input on LCFF priorities for the District. The district used the auto dialer to notify every parent/guardian in the District about the LCFF email address and the LCFF voice mail box. This message was sent out in English and Spanish. A section was added to the district website with information regarding LCFF/LCAP and it specifically invited the community to learn more about the process of providing feedback attend meeting and submit suggestions for LCFF priorities.</p>	<p>Gathering Input from Multiple Sources</p> <p>Several different groups worked hard to successfully impact the LCAP development process. Groups generated ideas about current needs and the impact of existing programs which also included prioritizing</p> <p>Survey and Budget Tools</p> <p>An online survey was made available and stakeholders were informed to visit the webpage to submit their responses. The results were then compiled into categories that matched the LCAP priority areas.</p> <p>An online survey asked participants to provide feedback on their top priority programs. The results of that survey and feedback form the</p>

Stakeholder and Community Engagement:

OUHSD held a public hearing to explain the Local Control Funding Formula on December 5, 2013. 24 people attended the meeting, one person was a parent. Given the community profile of diverse parent groups, the district has continued to make intensive and aggressive efforts to attract parent and community feedback.

OUHSD also includes an LCFF agenda item at every Board of Trustees meeting. Staff educates the Board about different aspects of the LCFF and LCAP. The public has an opportunity at every Board meeting to talk on an agenda item (LCFF) or on a non-agenda item to give the Board input on LCFF priorities. In order to continue its efforts to educate the stakeholders, OUHSD has used the following documents:

1. School Single Plans for Student Achievement (SPSA)
2. District Local Educational Agency Plan (LEAP)
3. Oroville Union High School District Needs Assessment Report prepared by Total School Solutions
4. School Quality Snapshots for Las Plumas High, Oroville High and Prospect High
5. Adequate Yearly Progress (AYP) Reports for all schools
6. WASC Self Study documents
7. OUHSD Technology Plan and
8. Oroville Union High School District Safety Plan

The county data and response from Foster Youth Services was included in all sections of the document and identified in action items that specifically meet the needs of the Foster Youth

meetings helped generate a list of top priorities for the district

Revised Priorities

After additional discussions and presentations, the LCAP document was designed to improve student learning and success. All the feedback was arranged under the 8 priority areas with a 3 year implementation deadline.

The feedback included some of these specific needs:

- Solar, lighting retrofits and HVAC replacements.
- Maintenance - paving/seal coating projects, spray roofing material on all buildings at LP, removal of old light poles at Bechtel, lights for baseball/softball fields
- Expansion of course offerings to include more AP classes
- Career Technical Education
- Lower class sizes
- Increase Parental Involvement
- Schools – computer and network equipment replacement, sports equipment/uniforms, basic supplies, perimeter fencing at LP, new bleachers for baseball/softball fields.
- Put cameras in the LP student parking lot
- Continue to implement Common Core
- Funds for both high school libraries to ensure maximum support for our students' course research and reading needs

English Language Learners group provided feedback which was included in all sections of the document and identified in action items that specifically meet the needs of the EL students.

Low Income students comprise 74% of the total student body. Feedback was included in all sections of the document and identified in action items that specifically meet the needs of the Low Income students.

In January, district principals and staff were provided information through:

1. Various site and district level meetings. 9-12 Principals have provided the information at their site to their school site parent leaders, teachers and staff.
2. Superintendent's Advisory Council, with representatives from parents and community.

The district worked with parent and community partner organizations to form focus groups representative of the students in our key subgroups. Superintendent Willenberg and his key staff visited with the local community groups to address the organizations seek input and provide updated information for the LCAP. The process was to generate feedback about programs and support services for student success and the needs of the parents and the community for services from the district around the entire education process. Input was sought and received from school groups including but not limited to School Site Council, ELAC, PTSA, School Leadership Committees, Department Chairs, PLC Guiding Coalitions,

- Continuation of mental health counseling services for students
- Attract and maintain high quality teachers

Update to the community:

A completed draft was presented to the Board for their input on May 8, 2014. Prior to that, the feedback from each group was gathered and compiled into a draft document which was then shared for feedback and edits. The draft was also shared with the DELAC and Superintendent Advisory Council groups.

Drafts of the LCAP were posted on the Oroville Union High School website and a dialer message was sent home to all families in the district asking them to review the document online and provide input.

The District consulted on the LCAP with both local bargaining units: CSEA Feather River Chapter 342 (5/19) and Oroville Secondary Teachers Association (5/29 and 6/9).

A second draft was presented to the Board on May 21, 2014, with a final draft and budget presented to the Board with a public hearing on June 18, 2014. Final Board approval is scheduled for the June 26, 2014 Board meeting.

<p>DELAC (5/1), Superintendent Advisory Council (10/23 and 5/13), Greater Oroville Youth And Family Development Coalition (GOYAFDC) (2/28), Oroville Union High School District Hall of Fame Committee (3/10), California Retire Teachers Association (CRTA) (5/7), Fellows Club of Oroville (5/29), Southside Vanguard (4/3), Hmong Cultural Center of Butte County (4/28), Oroville Secondary Teachers Association (OSTA) (5/29 and 6/9), CSEA Feather River Chapter 342 (5/19).</p> <p>The Superintendent’s Advisory Council</p> <p>The Superintendent’ Advisory Council was formed in 2011 to give guidance to the district and Superintendent. Council membership is made up from families with students attending each school site.</p>

Section 2: Goals and Progress Indicators

*For school districts, Education Code sections 52060 and 52061, for county offices of education, Education Code sections 52066 and 52067, and for charter schools, Education Code section 47606.5 require(s) the LCAP to include a description of the annual goals, for all pupils and each subgroup of pupils, for **each** state priority and any local priorities and require the annual update to include a review of progress towards the goals and describe any changes to the goals.*

Instructions: Describe annual goals and expected and actual progress toward meeting goals. This section must include specifics projected for the applicable term of the LCAP, and in each annual update year, a review of progress made in the past fiscal year based on an identified metric. Charter schools may adjust the chart below to align with the term of the charter school’s budget that is submitted to the school’s authorizer pursuant to Education Code section 47604.33. The metrics may be quantitative or qualitative, although LEAs must, at minimum, use the specific metrics that statute explicitly references as required elements for measuring progress within a particular state priority area. Goals must address each of the state priorities and any additional local priorities; however, one goal may address multiple priorities. The LEA may identify which school sites and subgroups have the same goals, and group and describe those goals together. The LEA may also indicate those goals that are not applicable to a specific subgroup or school site. The goals must reflect outcomes for all pupils and include specific goals for school sites and specific subgroups, including pupils with disabilities, both at the LEA level and, where applicable, at the school site level. To facilitate alignment between the LCAP and school plans, the LCAP shall identify and incorporate school-specific goals related to the state and local priorities from the school plans submitted pursuant to Education Code section 64001. Furthermore, the LCAP should be shared with, and input requested from,

school site-level advisory groups (e.g., school site councils, English Learner Advisory Councils, pupil advisory groups, etc.) to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet the goal.

Guiding Questions:

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning"?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes"?
- 3) What are the LEA's goal(s) to address state priorities related to "Engagement" (e.g., pupil and parent)?
- 4) What are the LEA's goal(s) to address locally-identified priorities?
- 5) How have the unique needs of individual school sites been evaluated to inform the development of meaningful district and/or individual school site goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth school level data analysis, etc.)?
- 6) What are the unique goals for subgroups as defined in Education Code sections 42238.01 and 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific predicted outcomes/metrics/noticeable changes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority and/or to review progress toward goals in the annual update?
- 9) What information was considered/reviewed for individual school sites?
- 10) What information was considered/reviewed for subgroups identified in Education Code section 52052?
- 11) In the annual update, what changes/progress have been realized and how do these compare to changes/progress predicted? What modifications are being made to the LCAP as a result of this comparison?

Identified Need and Metric (What needs have been identified and what metrics are used to measure progress?)	Goals			Annual Update: Analysis of Progress	What will be different/improved for students? Section 3: Actions, Services, and Expenditures

For school districts, Education Code sections 52060 and 52061, for county offices of education, Education Code sections 52066 and 52067, and for charter schools, Education Code section 47606.5 require the LCAP to include a description of the specific actions an LEA will take to meet the goals identified. Additionally Education Code section 52604 requires a listing and description of the expenditures required to implement the specific actions.

Instructions: Identify annual actions to be performed to meet the goals described in Section 2, and describe expenditures to implement each action, and where these expenditures can be found in the LEA’s budget. Actions may describe a group of services that are implemented to achieve identified goals. The actions and expenditures must reflect details within a goal for the specific subgroups identified in Education Code section 52052, including pupils with disabilities, and for specific school sites as applicable. In describing the actions and expenditures that will serve low-income, English learner, and/or foster youth pupils as defined in Education Code section 42238.01, the LEA must identify whether supplemental and concentration funds are used in a districtwide, schoolwide, countywide, or charterwide manner. In the annual update, the LEA must describe any changes to actions as a result of a review of progress. The LEA must reference all fund sources used to support actions and services. Expenditures must be classified using the California School Accounting Manual as required by Education Code sections 52061, 52067, and 47606.5.

Guiding Questions:

- 1) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to Education Code section 52052, to specific school sites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 2) How do these actions/services link to identified goals and performance indicators?
- 3) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA’s budget?
- 4) In the annual update, how have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 5) In the annual update, how have the actions/services addressed the needs of all subgroups of pupils identified pursuant to Education Code section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 6) In the annual update, how have the actions/services addressed the identified needs and goals of specific school sites and did the provision of those actions/services result in the desired outcomes?
- 7) In the annual update, what changes in actions, services, and expenditures have been made as a result of reviewing past progress and/or changes to goals?

- A. What annual actions, and the LEA may include any services that support these actions, are to be performed to meet the goals described in Section 2 for ALL pupils and the goals specifically for subgroups of pupils identified in Education Code section 52052 but not listed in Table 3B below (e.g., Ethnic subgroups and pupils with disabilities)? List and describe expenditures for each fiscal year implementing these actions, including where these expenditures can be found in the LEA’s budget.

--	--	---	--	--	---	---	---

C. Describe the LEA’s increase in funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner pupils as determined pursuant to 5 CCR 15496(a)(5). Describe how the LEA is expending these funds in the LCAP year. Include a description of, and justification for, the use of any funds in a districtwide, schoolwide, countywide, or charterwide manner as specified in 5 CCR 15496. For school districts with below 55 percent of enrollment of unduplicated pupils in the district or below 40 percent of enrollment of unduplicated pupils at a school site in the LCAP year, when using supplemental and concentration funds in a districtwide or schoolwide manner, the school district must additionally describe how the services provided are the most effective use of funds to meet the district’s goals for unduplicated pupils in the state priority areas. (See 5 CCR 15496(b) for guidance.)

Oroville Union High School District is estimating supplemental and concentration funding for the 2014-2015 school year to be \$1,631,985. The District has taken the input gathered from students, staff, and community and parent stakeholders to develop a plan that serves the needs of all students at all of the schools. These funds are calculated based on the number of English learners, students identified as low income, and foster youth. Currently, 1,729 of the OUHSD student population is receiving Free and Reduced meals. The other significant student groups are English Learners (152) and Foster Youth (61). The unduplicated FRPM/EL/Foster Youth total for OUHSD is 1,750 students or 74% of the student population.

OUHSD will offer a variety of programs and supports specifically for English learners, low income students and foster youth. These include: an EL Coach to supervise reclassification and coaching teachers to support English Learners.. The district also offers services and programs that are aligned with LCAP goals that serve all students such as: intervention counseling, nursing services, home to school transportation, academic counseling, training and preparation of all teachers, additional college and career courses and college readiness services, and intervention and remediation options, mental health support, family engagement etc. Implementation of these practices will not only have an impact on learning environment and the climate of the school as a whole but will also have a significant impact on the targeted subgroups.

The district recognizes that while these funds are generated in order to serve the focus students, some services may, should the need arise, be utilized for students outside the focus subgroups. While the majority of students served will be focus students (seventy percent or more), there may be other students in need that the district does not want to ignore. By providing the services identified without limitations, OUHSD will best serve all students, especially focus students. The full list of expenditures is aligned with the goals of the Local Control and Accountability Plan and addresses the needs of our district's English learners, low Income students and foster youth.

- D. Consistent with the requirements of 5 CCR 15496, demonstrate how the services provided in the LCAP year for low income pupils, foster youth, and English learners provide for increased or improved services for these pupils in proportion to the increase in funding provided for such pupils in that year as calculated pursuant to 5 CCR 15496(a)(7). Identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all pupils in the LCAP year as calculated pursuant to 5 CCR 15496(a). An LEA shall describe how the proportionality percentage is met using a quantitative and/or qualitative description of the increased and/or improved services for unduplicated pupils as compared to the services provided to all pupils.

The identified core services of the Oroville Union High School District are core instruction (math, English, Social Studies, Science). The stakeholders of the Oroville Union High School District believe that students deserve a robust educational program that will improve the core instructional program and that includes the following elements: counseling, nursing services consultation, intervention courses in English and math, ELL supports, alternative education options, home to school transportation, transportation for co-curricular and extra-curricular activities, music education, arts education, career and technical education courses, athletics, clubs, access to technology during the school day, access to technology and the school libraries before and after school, In School Suspension program to reduce out-of-school suspensions, School Resource Officers, and adult education to provide credit recovery options for students, diploma alternatives for the community, ESL classes and computer classes.

	2014-15
Estimated Total LCFF Funding	\$19,502,243
Estimated Base Grant	\$17,866,018
Estimated Total of Supplemental Grant	\$1,636,225
Proportional increase or improvement in services for low income/English Learner/Foster Youth pupils as compared to the services provided to all pupils in that fiscal year	9.40%
